1.Use the nslookup command to find the IP address of www.flipkart.com and note down any additional DNS information you discover.

Ans-

**2.Perform a Google dorking search to find any public Instagram profiles from your college domain (e.g., site:instagram.com "@yourcollege.ac.in") and list the first 3 results you find.

Hint: Try different queries to refine your results.**

Ans-

Step 1. Open Google

Visit Google Search.

Step 2. Enter a search query

Replace yourcollege.ac.in with your college's real domain.

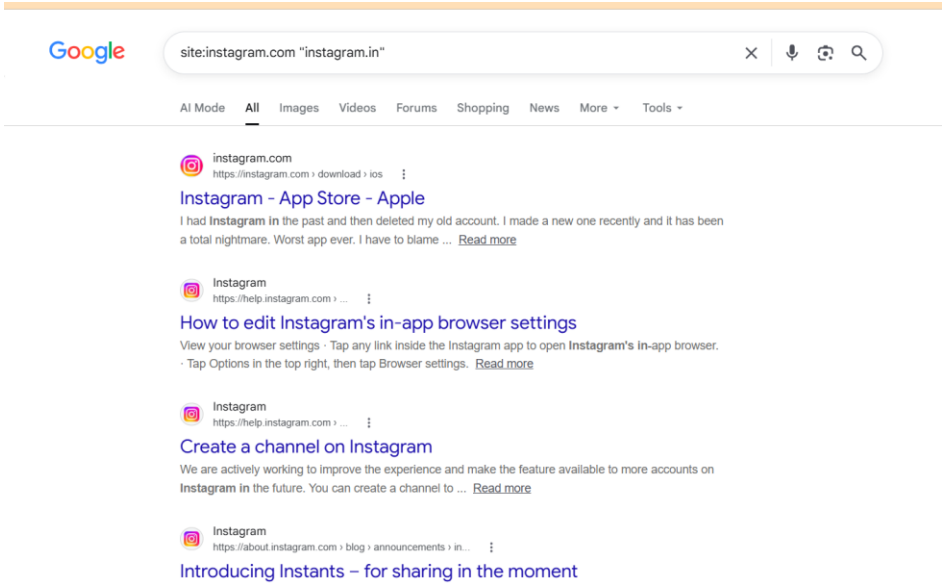

site:instagram.com "yourcollege.ac.in"

Step 3. Try alternative queries

site:instagram.com "Your College Name"

site:instagram.com "yourcollege.ac.in"

site:instagram.com "Your College Name" students

3.Use the whois tool (online or command line) to gather registration details for the domain zomato.com and summarize the organization name, country, and registration date.
